The battle cruiser Seydlitz was one of the German vessels which suffered heavily in the Juliand engagement, according to reports received in Denmark. These allege that the Seydlitz, a dreadmought cruiser of 15,000 tone, was seen on the morning after the battle steaming south off the Juliand coast, in a badly damaged condition and pursued by British warships.

An Edinburg dispatch says that survivors of British destroyers engaged in the Juliand fight, declare they are convinced that in a massed attack of torpeds craft they sent the German dreadmought Hindenburg to the bottom.

Roosevelt Will Command Votes Of 200 Delegates Or Less, Is Claim.

Arriving delegations brought evidence of sentiment in favor of the jurist and men who have been identified with the "old guard" of the Re-

"Everybody Should Parade" "Show the World Our Enthusiasm"

By JOHN M. WYATT, Grand Marshal of Parade.

T HE preparedness parade to be held in El Paso on Tuesday. June 14, is to demonstrate to the country and the world that the American people, El Pasoans in particular, are in favor of preparedness.

While our army bill and navy bill have been passed, this is but the beginning of the preparedness program of the United States. We wish to show that El Paso favors preparedness, and the parade is to show the world that El Paso is interested, and that we are willing to do our part. It may cost some of us a sore toe to walk in the parade, but we should be willing

to endure it; our soldiers are enduring much more. The time is coming when we will have universal service in this country and El Paso should be among the first to show its patriotism and its approval of this by giving a monster parade-
